

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	
Project Name	Heart Disease Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a collaborative environment where team members generate creative ideas to solve real-world problems. For this project, the team focused on analyzing heart disease patient data using Tableau dashboards. Different visualization techniques, healthcare metrics, and interactive dashboard features were discussed to identify the best solution for healthcare professionals. The selected ideas help improve patient data analysis, identify high-risk patients, and support data-driven healthcare decisions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected Problem Statement

Healthcare organizations generate large volumes of patient health records, making it difficult to identify heart disease risk factors quickly using traditional reports. The project aims to develop an interactive Tableau dashboard that visualizes patient health data, identifies disease patterns, and supports faster and more accurate healthcare decision-making.

Step-2: Brainstorm, Idea Listing and Grouping

Data Collection

- Heart Disease Dataset
- Patient Demographics
- Medical History
- Clinical Records

Data Preparation

- Data Cleaning
- Missing Value Handling
- Data Transformation
- Feature Selection

Dashboard Ideas

- KPI Cards
- Age Analysis
- Gender Analysis
- BMI Analysis
- Blood Pressure Analysis
- Cholesterol Analysis
- Smoking Analysis
- Diabetes Analysis
- Physical Activity Analysis
- Chest Pain Analysis
- Heart Disease Distribution
- Risk Factor Analysis
- Interactive Filters
- Story Dashboard

Expected Outcomes

- Identify High-Risk Patients
 - Improve Healthcare Decisions
 - Interactive Data Visualization
 - Easy Patient Data Analysis
 - Better Medical Insights
-

Step-3: Idea Prioritization

High Priority	Medium Priority	Low Priority
Interactive Dashboard	Story Dashboard	Theme Customization
KPI Cards	Dashboard Filters	Additional Charts
Age Analysis	Physical Activity Analysis	Advanced Animations
BMI Analysis	Blood Pressure Analysis	
Smoking Analysis	Cholesterol Analysis	
Diabetes Analysis	Chest Pain Analysis	
Heart Disease Distribution	Risk Factor Analysis
