

Project Design Phase-II

Data Flow Diagram & User Stories

Date	08-07-2026
Team ID	
Project Name	Heart Disease analysis
Maximum Marks	4 Marks

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Healthcare Professional	Dashboard Overview	USN-1	As a healthcare professional, I can view the Heart Disease Analysis dashboard to understand patient health statistics.	Dashboard displays all KPIs and charts correctly.	High	Sprint-1
Healthcare Professional	Data Analysis	USN-2	As a healthcare professional, I can filter patient records based on age, gender, chest pain type, cholesterol, and blood pressure.	Filters update all visualizations correctly.	High	Sprint-1
Healthcare Professional	Visualization	USN-3	As a healthcare professional, I can analyze trends through charts and graphs.	All charts display accurate insights.	Medium	Sprint-2
Healthcare Professional	Insights	USN-4	As a healthcare professional, I can identify high-risk patient groups using dashboard insights.	Dashboard highlights important patterns and trends.	Medium	Sprint-2
Administrator	Dataset Management	USN-5	As an administrator, I can upload and manage the Heart Disease dataset for analysis.	Dataset uploads successfully without errors.	High	Sprint-1
Administrator	Dashboard Maintenance	USN-6	As an administrator, I can update the dashboard whenever new patient data is available.	Dashboard refreshes successfully with updated data.	Medium	Sprint-2
Hospital Management	Reporting	USN-7	As hospital management, I can view summary reports for decision-making.	Reports display accurate healthcare insights.	Medium	Sprint-2
Medical Researcher	Data Exploration	USN-8	As a medical researcher, I can explore patient data to identify disease patterns and trends.	Dataset and visualizations support detailed analysis.	Low	Sprint-3
